KSL & Citrix Partnership

Kinol Sharie Leyh & Associates, Inc. is an Authorized Citrix® Solution Provider. We are certified on the MetaFrame and XP products. We can assist you in Planning, Testing, Installation, Deployment, Support and Training for the above Citrix Products. We will also assist in a pilot program to test all applications you would like to run under Citrix. We have assisted and continue to support many companies that have implemented Citrix for over six years.

Citrix Overview

Citrix Systems, Inc. is a global leader in application server software and services that offer "Digital Independence" - the ability to run any application on any device over any connection, wireless to Web. Citrix's solutions enable organizations of all types, from major enterprises to emerging application service providers (ASP's), to reach more users, with more applications, in more locations - and achieve this with greater speed and predictability, and lower costs.

Their products, including MetaFrame XP for Windows application server software, **NFUSE** application portal software, Citrix Secure Gateway (**CSG**), and Independent Computing Architecture (**ICA**), a core application-server technology, have been widely adopted by the corporate mainstream to achieve key business goals.
